ENJOY YOUR
SUMMER
VACATION

Dear Parent

Holidays bring delight to the little ones as they provide recreation, fun, frolic and rest. Summer holidays are here again to give us respite from the scorching heat. We hope that our kids enjoy their vacation time and learn through these fun filled activities.

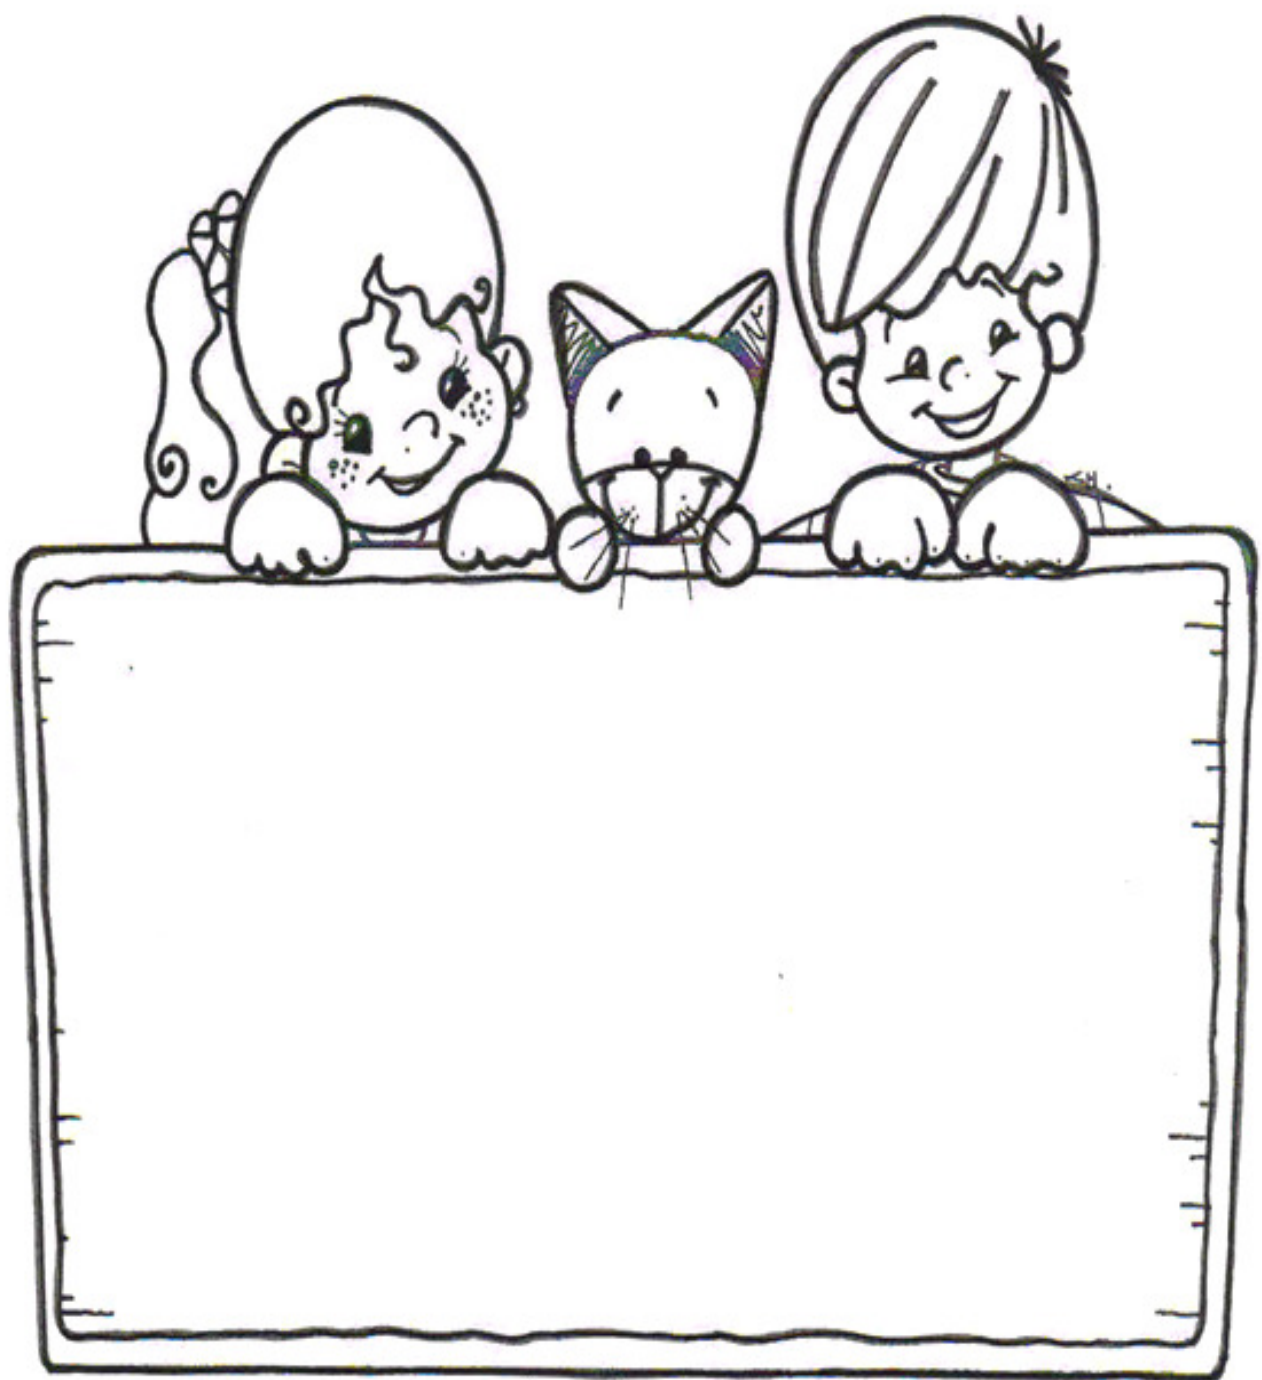

- * Encourage your child to go out and play, as sports instill discipline and channelize energy constructively.
- * Spend some time with your child by playing or simply doing normal conversation to enhance the bond between you and your child. While doing these activities converse with your child in English and develop a habit of speaking proper sentences.
- * Sensitize your child about the rich culture and heritage by watching different informative channels.
- * Have at least two meals together with your children. Teach them the importance and hard work of the farmers and ask them not to waste food.
- * Gently encourage your child to raise a kitchen garden by planting seeds. Knowledge about plants and trees is an integral part of your child's growing up.
- * Share stories about your childhood and your family history.
- * Visit the grandparents and let the children bond with them. Their love and emotional support is very important for your child. Take photos with them.
- * Revise the syllabus of all subjects done till date. Help the child learn various concepts with the help of storybooks and educational CD's.
- * Make your kids do the given worksheets on their own and send the Holidays' Homework back in the school folder on 2nd July'18.

Happy Holidays! Enjoy your vacation.
